

Re Austream Builders

To whom it may concern,

Michael McCurtayne and his team at Austream recently renovated our house in Cammeray and we would easily and highly recommend them for any renovation or building work.

The team at Austream were a pleasure to work with, trustworthy, were seamless in working with our architect and delivered building outcomes of a high standard. Michael's relaxed nature at all times made the building process substantially easier and ensured the focus was always on delivering outcomes. Whenever we required changes to the original plans, Michael always delivered on our requests, with pricing always reasonable with no extra fees or charges.

The Austream team were always prepared to offer suggestions to improve on our original plans and when we had work that fell between the role of landscaper and pool builder, Austream were prepared to help out on all occasions.

The staff at Austream were always polite and professional when building, with positive feedback from our neighbours further validating our choice to select a builder that not only ensured we ended up with the home we wanted, but that made the process of building as stress free as possible.

We would not hesitate to recommend Austream.

Thanks

Philip and Janelle
